

<i>Name of the course</i>	Internal medicine internship			Code	
<i>Type of study program Cycle</i>	Integrated university studies, medicine			Year of study	V
<i>Credits (ECTS) :</i>	6	<i>Semester</i>	X	Number of hours per semester (l+e+s)	120 (0+100+20)
<i>Status of the course:</i>	mandatory	<i>Preconditions:</i>	Passed all exams of the 4 th year	<i>Comparative conditions:</i>	
<i>Access to course:</i>	5 th year medical students			<i>Hours of instructions:</i>	According to schedule
<i>Course teacher:</i>	Professor Monika Tomić, MD, PhD				
<i>Consultations:</i>	As agreed				
<i>E-mail address and phone number:</i>	monika.tomic@gmail.com				
<i>Associate teachers</i>					
<i>Consultations:</i>					
<i>E-mail address and phone number:</i>					
<i>The aims of the course:</i>	To learn the principles of disease recognition, diagnosis and ways of treating internal diseases.				
<i>Learning outcomes (general and specific competences):</i>	<p><u>General outcomes:</u></p> <ul style="list-style-type: none"> • Understanding the most common internistic diseases, the principles of recognition and treatment, and the emergencies in internal medicine. • Remembering the most common pulmonary, neurological and infectious diseases. <p><u>Specific outcomes:</u></p> <ul style="list-style-type: none"> • Applying the practical skills and knowledge on the algorithms of the procedures and examinations needed for the synthesis of a differential diagnosis as well as for the treatment of the patients. • Remembering and analyzing the emergency conditions, their treatment and the approach to patients. • Understanding the importance of an active participation in disease prevention and health preservation. • Applying the patient counseling about the drug effects and correct ways of administration. 				
<i>Course content (Syllabus):</i>	The course consists of 120 hours of instructions that are divided into exercises and seminars, which take place at the Department of Internal Diseases, the Department of Infectious Diseases, the Department of Neurology and the Department of Pulmology. In addition to practical				

	work, which is accompanied by assistants and professors, daily seminars on the most common internal diseases are held.			
Format of instruction (mark in bold)	Lectures	Exercises	Seminars	Independent assignments
	Consultations	Work with mentor	Field work	Other
	Remarks:			
Student responsibilities	Students are required to attend classes, it is allowed to justifiably be absent from 20% of classes.			
Screening student work (mark in bold)	Class attendance	Class participations	Seminar essay	Practical training
	Oral exam	Written exam	Continuous assessment	Essay
Detailed evaluation within a European system of points				
STUDENTS RESPONSIBILITIES	HOURS	PROPORTIONS OF ECTS CREDITS	PROPORTION S OF MARK	
Class attendance and participations	30	1	10%	
Seminar essay	60	2	20%	
Written exam	85	3	70%	
Oral exam	-	-	-	
Further clarification: According to the regulations of the study, final grade is obtained: A = 91-100% 5 B = 79 to 90% 4 C = 67 to 78% 3 D = 55 to 66% 2 F = 0 to 54% 1				
Required literature:	<ol style="list-style-type: none"> Božidar Vrhovac, Igor Francetić, Branimir Jakšić, Boris Labar, Boris Vucelić, Interna medicina Medicinska biblioteka, naklada Levak, Zagreb 2009. Neurologija za medicinare, V. Brinar et al, Medicinska naklada Zagreb 2009. Begovac J, Božinović D, Lisić M, Baršić B, Schoenwakld S. Infektologija. Zagreb: Profil, 2006 			
Optional literature:	<ol style="list-style-type: none"> Fališevac J. Opća klinička infektologija, 4. dopunjeno izdanje. Zagreb, Školska knjiga, 1985. 			

	2. Neurologija, V. Demarin, Z. Trkanjec; Medicinska naklada Zagreb 2008.
<i>Additional information about the course</i>	Monitoring methods of teaching quality: <ul style="list-style-type: none"> - student questionnaire - quality analysis by students and teachers - exam results analysis - report of the office for teaching quality - external evaluation (visit of team for quality control)

Annexes: calendar classes

<i>The number of teaching units</i>	TOPICS AND LITERATURE
<i>I.</i>	Title: Intestinal infections
	Short description: Familiarization with the etiology of a wide range of intestinal infections, clinical picture, differential diagnosis, tests and treatments.
	Literature: required and optional
<i>II.</i>	Title: Systemic lupus erythematosus (SLE)
	Short description: Familiarization with a possible etiology of SLE, differential diagnosis, criteria for diagnosing SLE, treatment.
	Literature: required
<i>III.</i>	Title: Diabetes mellitus with acute and chronic complications
	Short description: Familiarization with types of diabetes, recognizing acute complications of diabetes, preventing chronic complications. Treatment of diabetes mellitus with emphasis on patient education.
	Literature: required
<i>IV.</i>	Title: Thyroid diseases
	Short description: Etiology of thyroid disease, clinical picture of various thyroid gland diseases, differential diagnosis, treatment. Diseases of thyroid gland in pregnancy.
	Literature: required
<i>V.</i>	Title: Acute renal insufficiency
	Short description: Causes of acute renal insufficiency, the tests that need to be made in differentiating the causes of acute renal insufficiency. Treatment of acute renal insufficiency, basics of hemodialysis.
	Literature: required
<i>VI.</i>	Title: Chronic renal insufficiency
	Short description: The causes of chronic renal insufficiency, clinical stage of CRI, approach and treatment of patients at each stage of renal insufficiency. The basic principles of dialysis (hemodialysis, peritoneal dialysis). Kidney transplantation.
	Literature: required
<i>VII.</i>	Title: Gastrointestinal bleeding
	Short description: Causes of gastrointestinal bleeding, differentiation of

	bleeding sites, diagnostic tests, approach to the patient with gastrointestinal bleeding and treatment.
	Literature: required
VIII.	Title: Pancreatitis
	Short description: The most common causes of acute and chronic pancreatitis, clinical criteria for diagnosis and severity of the disease, diagnostic methods, approach to treating patients with acute and chronic pancreatitis.
	Literature: required
IX.	Title: Liver cirrhosis and complications
	Short description: The most common causes of liver cirrhosis, its complications, diagnostic methods in diagnosis. Treatment of liver cirrhosis, prevention of complications as well as treatment of complications.
	Literature: required
X.	Title: Cardiac insufficiency
	Short description: Etiology of cardiac insufficiency, early recognition of disease, clinical picture, diagnostic examinations and treatment.
	Literature: required
XI.	Title: Acute coronary syndrome
	Short description: Differential diagnosis of chest pain, guidelines for diagnosis of acute coronary syndrome and treatment of acute coronary syndrome.
	Literature: required
XI.	Title: Pulmonary embolism
	Short description: Discuss the causes of pulmonary embolism, differential diagnosis, and urgent recognition and treatment of a pulmonary embolism.
	Literature: required
XII.	Title: Respiratory insufficiency and gas analysis
	Short description: Familiarization with diseases and conditions that can lead to respiratory insufficiency, gas analysis, interpretation of gas analysis findings, and treatment of respiratory insufficiency.
	Literature: required
XIII.	Title: Approach to a haematological patient
	Short description: Familiarization with the basics of haematological diseases, the necessary laboratory tests, puncture, bone biopsy, radiological diagnosis.
	Literature: required
XIV.	Title: Anemia
	Short description: Causes of anemia, basic laboratory tests needed for anemia diagnostics, other examinations for anemia diagnostics, differential diagnosis and treatment.
	Literature: required
XV.	Title: CVI
	Short description: approach to patients with stroke, diagnostic methods and treatment.
	Literature: required and optional
